ACE Consulting

Monthly Newsletter

Field Operations

Field Operations had another great month. We have set a new record for the amount of staff in the field. Fortunately, we are continuing to grow that number each week with new staff and new clients! We have also gained phenomenal traction with our Temporary Staffing department and now have temporary staff onsite in Maine to assist with a new client.

Construction

ACE Construction has been developing partnerships with General Contractors in and around the Chicago area!

Building the Kingdom Fund

Through the Building the Kingdom Fund, the ACE team has provided support to numerous organizations around our community. Our giving has provided the community with technology upgrades as well as funded rehabilitation homes. In addition to this, the funds helped provide military personnel with donations, helped find jobs for those struggling to find employment, enabled an at-risk kids' community to obtain safety equipment and insurance. Through our giving, we are continuing to build the kingdom in our community one organization at a time.

Pre-Construction

ACE's Pre-construction team continues to press ahead towards the overall 2021 goals, currently tracking within 2% of Precon's YTD targeted goal. Pre-con continues to perform highly on work under the federal banner of USACE, NAVFAC, Veteran Affairs, and more! The team has also been working in the commercial world in the last few months. They have been developing schedules in the Food and Beverage industry. They have tracked over 1B dollars' worth of the construction and start-up of new and expanding manufacturing facilities. As they continue to win new work, Pre-con expects to get even busier in the near future!

Small Projects

ACE Small Projects continues to bid on local projects in and around Central KY. We offer clients in the residential and commercial markets our expertise through Demolition, Drywall, Small Scale Utility Jobs, Grading, ACT, Doors, Windows, Painting, Framing, Metal Buildings, Small Scale Concrete, Site Clearing and Grubbing, Flooring, Insulation, and more!

Riddle of the Month

What has only two words, but thousands of letters?

Training

The ACE Training team continues to work with Gray Construction by creating their internal CPM Scheduling training program. The spring 2021 semester at ECU is wrapping up, and we are very proud of the graduates! We are looking forward to being part of the Fall semester for the Construction Management Program! We encourage you to join us for a 3-hour training session: RMS - For Beginners. To learn more about registration and pricing, visit our website or give the training team a call!

Security

The security team has just submitted a proposal with Fusion Technologies for Site Security Personnel to Embassies for the DOS. They are also continuing to support security oversight efforts in the United States on construction projects and SCIF's in Aurora, CO, and Falls Church, VA. They supply clients with Full-Scope Polygraph cleared Site Security personnel and maintain a strong reputation among partnering contractors for exceeding expectations.

Facilities

ACE's Facility Management team hopes to further our Facilities Management division through GSA contract opportunities!

Message from Scott Arias

COVID IS OVER. Well, not entirely. COVID is still affecting our everyday lives, but here at ACE, things look normal. Actually, they look better than normal. Business is booming and we are growing at a rapid rate. For the first time in our history, we have over 100 people working under the ACE Umbrella. More importantly, we are making a bigger impact on the world, because 10% of our revenue goes to Christian Based Charities. So many exciting things happening to include new software we will be offering our clients, a corporate headquarters under design, and many other initiatives. Our success is based on our people and we have some great ones. As a professional services company we have and are attracting the best talent. In the history of ACE, we have not had such a solid team as we have today. That is good news for our clients, our employees, and our charities. Take 5 seconds and thank God for what he has done and what he will do.
